HPS - EXCLUSIVE UK DISTRIBUTOR

Ultimate Wind Protection

German made, high-quality, effective screens

Manufactured in Germany to TÜV standards from a unique and virtually unbreakable aircraft canopy material – with a perfect fit and finish and a lifetime warranty ...there's no better screen than an MRA!

Manufactured from a unique, shock resistant and shatterproof, specially developed material - used by no other motorcycle screen manufacturer - for the ultimate in durability and safety.

Get yourself behind the winners' Double-Bubble Racing Screens

Champions and race winners worldwide know how important it is to ride behind the most effective, aerodynamic and durable screens there are... and a perfectly fitting MRA screen will not only reduce drag, but also enhance your bike's comfort and sporting appearance too.

Fabio Quartararo
Youngest ever MotoGP Pole Sitter, riding behind his MRA Screen

MRA, THE ORIGINAL DOUBLE-BUBBLE FROM JUST £58

Screens for Naked Bikes

MRA has a wide selection of windshields for Naked Bikes (bikes without screens or fairings fitted as standard) in a variety of different sizes to ensure you can choose a screen that exactly meets your needs - both in style and function.

Thanks to their advanced designs - tested in a full sized wind tunnel where necessary - even the smaller of these windshields offers exceptionally good protection without generating annoying wind noise or turbulence to interfere with the enjoyment of riding your bike.

- Fit almost any naked bike
- Fully adjustable for height and angle
- Rugged construction
- Anti-vibration mounting
- Clear or Smoked Screen
- 3rd generation design
- Includes adjustable bar-mounting or bespoke fitting kit
- Manufactured in Germany to TÜV standards
- Lifetime guarantee to the original purchaser

Roadshield Classic (ROC)

"I don't know why these aren't standard they do a great job"
MG, West Glamorgan

M
MADSTAD

Extreme Adjustability Delivers Extreme Comfort... Mile After Mile, After Mile

Tilt by up to 25°
Adjust by up to 76mm in height

BMW F850GS

The versatile MadStad system provides entire screen adjustability individually for you with up to 25 degrees of tilt angle combined with up to 3 inches/76mm in height... without even getting off your bike!

This wide range of position adjustments makes your windshield operate more aerodynamically by allowing air to flow underneath the screen to reduce vacuum effect - creating a far smoother airflow, virtually eliminating turbulence - and the difference in ride comfort is remarkable.

“ I tried on no less than 6 different screens on my Tiger 800... No other system provided the kind of wind protection and ‘quiet’ as did the Madstad. ”
MT, Malaysia

***SIMPLE PLUG 'N PLAY INSTALLATION FOR MOST RECENT BIKES**

COMPLETE QUICKSHIFTER FROM ONLY...
£299.99

...Or ask us about an upgrade to your OE Quickshifter

Proven at the highest levels of professional racing...

- Latest, advanced range
- Easy-to-install
- Ultra-Compact & Totally Reliable
- 2 Year Warranty

This renowned and advanced range of Quickshifters is by far the simplest to install too! Plug 'n play fitting for most bikes, modular design and variable kill-time.

- Translogic's unique Intellishift™ with AST (Adaptive Shift Technology)
- Smallest, most compact, Multi Channel quickshifter ECU in the world
- Won't flag up warning lights like many other quickshifter systems
- Unique 'Soft' feel sensor design exclusive to Translogic Systems for a smoother shift and less gear lever stress for the user
- Factory-Set Durashift Titanium/Steel rod sensor which never needs setting up and can't ever go out of adjustment (optional DCS sensor works as PUSH and/or PULL)
- Dedicated bike specific tie rods supplied, where applicable
- Finest quality harness components - features Plug 'n Play connectors, where applicable
- Factory fitted OEM approved

OPTIONAL BLIPPER UPGRADE...
£295

Auto blips your throttle when downshifting

Gain Road, Track & Race Advantage with IRC Electronic Upgrades

MARKET LEADING RANGE WITH TECHNOLOGY FROM MOTOGP

GET PLUG & PLAY DOWNSHIFTING FROM ONLY £600

SGRACE Automatic Clutchless DownShift Throttle Blipper & Enhanced Quickshifter Systems

Gain from super-quick fully automated blipped and entirely clutchless adjustable downshifting by simply pressing your gear lever. Benefit from the same technology as supplied direct from IRC to motorcycle manufacturers and race teams at all levels, up to MotoGP.

Easy to install (i.e., completely Plug-and-Play to all the original OEM connectors on your bike) and with ultra-reliable Load-Cell/Strain Gauge Shift-Rod Sensor, which will also enhance your bike's original Quickshifter, where fitted.

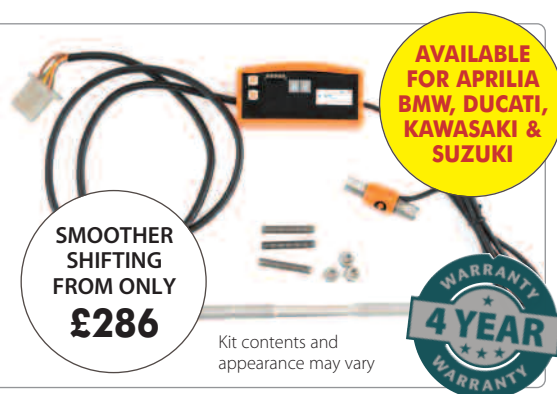

Aprilia RSV4RF & BMW S1000RR shown
www.bikehps.com/irc

Compatible with many 'fly-by-wire' models from Aprilia, BMW, Ducati, Honda, Kawasaki, KTM, Suzuki & Yamaha

SGRACE OE Replacement Upgraded Load-Cell/Strain-Gauge Quickshifter/Blipper Shift-Rod Sensor

Even though the electronics may work okay - because bike makers want to do things at the cheapest possible price - standard fit mechanically switched Quickshifter Rod Sensors ordinarily are non-adjustable and create a very "wooden" upchange feel, often wearing out prematurely.

Your solution is adding a fully adjustable (for pressure/sensitivity) Plug-n-Play IRC electronically controlled Load-Cell/Strain-Gauge Shift-Rod Sensor which has no moving parts to wear out and which will dramatically improve your gearchange action, protect your gearbox ...and which will also control a Downshift Blipper, where your bike has one.

AVAILABLE FOR APRILIA, BMW, DUCATI, KAWASAKI & SUZUKI

SMOOTHER SHIFTING FROM ONLY £286

Kit contents and appearance may vary

INSTALLS ON VIRTUALLY ANY BIKE £674

WARRANTY 4 YEAR

SGRACE-2T/CDI 2-Stroke & 4-Stroke Quickshifters

SUPER SMOOTH, FULL-THROTTLE UPSHIFTING £330

WARRANTY 4 YEAR

Experience super-smooth, constant or full-throttle upshifting on the road or gain metres over your rivals on the track!

Now it's possible to blip virtually any 'non-fly-by-wire' bike which has a gear change shift rod.

This mechanical system blips your fuelling system with a mechanical solenoid actuating a simple direct connection to your throttle cable.

The system also incorporates a fully adjustable and advanced SGRace Quickshifter, worth £330 (as shown right), meaning it's really great value for money!

Even though you may have an earlier two-stroke or four-stroke bike, there's no reason why you shouldn't benefit from today's advanced electronics with the latest SGRace Quickshifters. Shift up through the gears at constant or full throttle - without the use of the clutch - for lightning smooth acceleration at any RPM.

Supplied with combined installation guide and user manual, it's very straightforward to install on any single, twin, or four-cylinder bike with conventional CDI ignition and spade type terminal coils.

Visit our website for more information... www.BikeHPS.com

GP FAX

RACE & TRACK PADS BY EBC

3x British Champion Kyle Ryde clinches his 2019 GP2 title with GP FAX Brake Pads

World Level Race & Championship Winning Pads

After years of research and development, the Europe's largest motorcycle brake pad manufacturer - EBC - introduced this totally new breakthrough sintered compound has which outperformed all track-only pads ever tested by the HPS team.

- **Instant** unbeatable stopping power - even when cold or wet
- **Extreme** high temperature fade resistance
- **Superb** feel and feedback at the brake lever
- **Minimum** 'in-stop' friction/retardation variation
- **Compatible** with original or aftermarket steel discs
- **Worldwide** wins by racers at all levels
- **Quickly** usable - minimal bedding in process required
- **Lowest** pad wear and disc rotor abrasion levels

Not only is this a superb pad compound, but HPS also offers you a money back guarantee (see details below). Visit our website for more technical data or call us to discuss.

THE HIGHEST PERFORMING, RACE-WINNING COMPOUND, AVAILABLE TO YOU NOW!

NOT FOR ROAD USE. These are not to be confused with EBC's regular Road Performance 'Double-H' or GPFA Race pads. The high friction levels delivered by this compound is for use with race tyres and unsuitable for any street/low adhesion surface. May invalidate road insurance as NOT ECE R 90 approved. Limited caliper/applications available.

HPS MONEY BACK GUARANTEE. We'll give you a 14-day money back guarantee on your first set (exc. postage) if you've taken our advice and don't find these are the best race pads you've ever used!

WE BELIEVE YOU CAN'T BUY A BETTER RACE PAD!

"The GP FAX were a great improvement - loads of power, with a more organic feel and plenty of bite. They were the pads I was looking for all along."

BrakeTech
PERFORMANCE BRAKES

Ventilated Racing Caliper Pistons

Unfortunately, standard calipers ordinarily use problematic Aluminium pistons – lightweight, yes, but also highly conductive in providing a huge heat path straight into the hydraulics leading to numerous potential issues including boiling fluid induced fade and lever travel problems.

BrakeTech has now addressed this with these precision engineered ventilated Stainless Steel pistons of proprietary material - which feature 12 ventilation holes and a unique castellated reverse chamber for increased fluid capacity - that all but eliminate those shortcomings.

STRONGEST • LIGHTEST

TESTED TO THE TOUGHEST INTERNATIONAL STANDARDS, BST CARBON FIBRE WHEELS

Countless independent tests have conclusively proven you'd need to spend many thousands more on engine, brakes and suspension, to gain anywhere near the all-round - and overwhelming - performance improvements and riding benefits provided by simply installing a pair of ultra-light, yet ultra-strong, Carbon Fibre Wheels.

With over 35,000 delivered worldwide, BST produce the only Prepreg Aerospace/NASA and F1 technology grade (FAR25 qualified) motorcycle wheels of established design, a design not weakened by the inclusion of wire rim inserts.

Comfortably exceeding all worldwide standards... **JASO**   **bsi**  

Being the only Carbon Fibre Wheels to rigorously conform 100% with all international safety and testing standards is why BST are the first and only Carbon Fibre Wheel manufacturer to earn Original Equipment Manufacturer (OEM) certification for Arch, Ariel, Confederate, Ducati, Motus, MV Agusta, Norton, Energica MotoE, to name a few, and their strength and performance benefits have delivered multiple race and championship wins worldwide.

Always supplied by HPS complete and ready to drop in - after simply mounting discs and tyres - we've already helped thousands of riders transform their bikes with Carbon Fibre Wheels, so why not visit our website or call us to discuss your individual wheel needs now?

"Easy fit. The quality is amazing and were so well made that hardly any weight was needed on the wheel balancing!
The weight loss from changing over the wheels is very noticeable.."
RichardR9T, ninetowners.com

"I was after that kind of classic spoked look but it was really important to me that the wheels stood out, then I happened to see an MV Brutale 800 Dragster RR with them and they're just immense - I had to have them!"
MT, Nottingham
